

allthemath.org Vol II Episode V – R cheat sheet

Plotting:

Set up the plot with:

```
plot(0,0,type="n", xlim=c(min.x,max.x), ylim=c(min.y,max.y))
```

to add colored points:

```
points(x.value, y.value, col="color.name")
```

to add lines w/ arrowheads:

```
arrows(from.x.value, from.y.value, to.x.value, to.y.value,  
       col="color.name")
```
